Plant Growth Regulation **10:** 385–388, 1991.

Plant Growth Regulation

Contents of Volume 10 1991

Volume 10, No. 1

D. Blakesley, G.D. Weston and M.C. Elliott, Endogeneous levels of indole-3-acetic acid and abscisic acid during the rooting of *Cotinus coggygria* cuttings taken at different times of the year 1
Y.-X. Zhu and P.J. Davies, The identification and metabolism of GA_9 and its metabolites in seed coats and shoots of pea, line G2[1] 13
Gh.R. Khosravi and I.C. Anderson, Growth, yield, and yield components of ethephon-treated corn 27
Y. Kamuro and K. Inada, The effect of brassinolide on the light-induced growth inhibition in mung bean epicotyl 37
M.J. Durrant and S.J. Mash, Sugar-beet seed steep treatments to improve germination under cold, wet conditions 45
A. Misra and N.K. Srivastava, Effect of the triacontanol formulation 'Miraculan' on photosynthesis, growth, nutrient uptake, and essential oil yield of Lemongrass (*Cymbopogon flexuosus*) Steud. *Watts.* 57
E. Pressman and R. Shaked, Interactive effects of GAs, CKs and growth retardants on the germination of celery seeds 65
E. Zelená and K. Fuksová, The effect of indole-3-acetylaspartic acid on adventitious root formation on bean cuttings 73

Book reviews
R.W. Pearcy, J. Ehleringer, H.A. Mooney and P.E. Rundel (Eds.), *Plant physiological ecology: Field methods and instrumentation* (J.M. Roney) 79
